

Proposed Inclusion Target Groups and Supporting Documentation in Montenegro

Note: This table presents ICEPS Kotor's reference list of target groups and the corresponding methods for verifying status in Montenegro. It is not a nationally prescribed list for Montenegro and does not mean that every category listed automatically qualifies for additional financial support under every KA171 project. For each specific KA171 project, it should be verified which of the listed categories are eligible for additional financial support under the rules of that project and the National Agency responsible for the grant. Where necessary, the criteria and methods of verification should be further aligned with the partner institution before the start of the mobility.

No.	Target group	Supporting documentation / method of verification in Montenegro
1	Student with a disability	Valid document/decision issued by the competent authority confirming the disability or the status of a person with a disability.
2	Student with a serious chronic condition or illness	Medical report issued by the appropriate medical specialist or, where applicable, another authorised professional (e.g. a psychologist). If an appropriate document issued by a competent authority exists, it may also be used. The required recency of the medical documentation should be agreed with the partner institution for the specific KA171 project.
3	Student who receives material support, or whose parent/guardian receives this benefit	Decision or certificate issued by the competent Centre for Social Work confirming that the student, or their parent/guardian, receives material support.
4	Student residing in a less developed local self-government unit	Certificate of residence issued by the Ministry of the Interior. The development status of the local self-government unit is verified against the official list of development levels in force at the time the call is published.
5	Student who has a child	Child's birth certificate.
6	Student whose parents are both deceased	Student's birth certificate and death certificates for both parents.
7	Student who is or has been under guardianship, in foster care, or placed in a social welfare institution	Decision or certificate issued by the competent Centre for Social Work or another competent authority confirming guardianship, foster care or the relevant form of institutional placement.
8	Student living in a family with three or more children	Birth certificates demonstrating the family relationship; where common residence needs to be confirmed, certificates of residence issued by the Ministry of the Interior for the relevant family members.
9	Student supported by a single parent or by a parent who independently exercises parental responsibility	Birth certificate confirming the parent-child relationship and appropriate official documentation confirming single-parent status or the independent exercise of parental responsibility; certificate of residence if required.
10	Student belonging to the Roma or Egyptian community	Declaration signed by the applicant confirming that they belong to the Roma or Egyptian community.
11	Student granted asylum, subsidiary protection or temporary protection	Decision issued by the Ministry of the Interior or another valid status document confirming the granted form of protection.
12	Other groups of students with fewer opportunities in accordance with Erasmus+ rules and/or the rules of the specific KA171 project	The category, criterion and method of verification are agreed in advance with the partner institution for the specific KA171 project. The defined criteria should be included in the IIA.
